

Cleaning & Care Instructions

SOLID SURFACE & STONETEC

For the best results when caring for your PARISI products, follow the instructions carefully and use only the cleaning products suggested below. The use of other cleaning products may damage or discolor your product and potentially affect the functionality.

Always test the cleaning solution on an inconspicuous area before applying to the entire surface. Wipe surfaces clean and rinse completely with water immediately after applying cleaner.

For full warranty information, visit www.parisi.com.au.

PARIS's collection of solid surface vanities and basins are made from non-toxic materials, making them environmentally friendly as well as durable and hygienic. The nature of solid surface allows for exceptional design creativity and shaping new forms in basins and vanities solutions. The flexibility in the heat-treatment during formation, allows the solid surface material to be formed into virtually any shape including perfectly rounded edges.

This highly durable material is resistant to scratching, heat, water and stains. Easy to keep clean and hypoallergenic, the semi-gloss smooth finish maintains its integrity over time and is simple to maintain.

To maintain the appearance of Stonetec, use a cloth that has been rinsed in warm soapy water, and dry with a clean, dry cloth. For stubborn marks or stains use a mild multi-purpose paste cleaner in a firm circular motion, always finish by wiping the surface with a damp soft sponge and wipe dry. Do not use abrasive cleaners as it will dull the finish.

What is Stonetec?

Stonetec is manufactured from a new generation of environmentally friendly material, combining natural materials and pure polyester resin. It is produced using one mold to ensure an even solid, non-porous, bacteria and stain resistant surface that is easily maintained.

ATTENTION:

It is the responsibility of the purchaser to ensure the product is installed and maintained appropriately according to manufacturer's recommendations. Failure to do so may void product warranty.
